

In the Claims:

Please cancel claims 15-17 without prejudice or disclaimer of the subject matter contained therein.

Please replace claim 11 with the following rewritten claim:

11. (Amended) A disk transferring device for a disk drive, comprising:  
a moving unit for being contacted to one surface of a disk and rotated by the force of a driving source for thereby moving the disk;  
    <sup>b1</sup> a balance guide unit for guiding the disk for thereby precisely inserting the disk;  
    a holder guide unit which is connected with the balance guide unit and is operated by operation of the balance guide unit for guiding the disk moved by the moving unit and guiding the disk until the disk transfer is finished;  
    a selection guide unit which is connected with the holder guide unit for positioning the disk according to the size of the disk; and  
    a clamping driving unit for clamping the disk, the clamping driving unit being interlocked with the selection guide unit.
